ST. MORITZ SUMMER

SWITZERLAND Even the name **ST. MORITZ** evokes glamour, and in person, it does not disappoint. St. Moritz will leave no doubt in your mind that if God lived on earth, he would live in Switzerland. Although mostly associated with the winter ski season, St. Moritz is also a summer destination where you can hike the **ENGADINE MOUNTAINS**, bike around the lake and soak in the beauty. Even diehard city dwellers find themselves asking, "Why don't we live in Switzerland?"

A weekend in St. Moritz during the summer will be relaxing, yet active and low-key, yet glamorous. Beauty comes both in the form of the natural scenery and that of the international party crowd that converges upon St. Moritz. The place to stay is **BADRUTT'S PALACE**, a lavish hotel where you will be treated like the glamorous Galavanter you are.

St. Moritz will inspire you to crank up that workout routine. Your days will be filled with outdoor activities with all the other perfect Swiss Miss families and crazy fit vacationers. Of course your reward will be the hearty Swiss food, which includes the traditional Kaesespaetzle, a decadent homemade pasta with melted cheese, or on the lighter side, the schnitzel with pommes frites. The only thing that could rival St. Moritz in the summer is St. Moritz during ski season, which we'll be sure to visit this winter. Galavante with us [here](#).
